

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

July 1-15, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 1-15, 2006**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Monday, July 03, 2006</u>			
2006071003	<p>Kaminaka General Plan Amendment ED 04-343 San Luis Obispo County Nipomo--San Luis Obispo Request by Hideo Kaminaka for a Land Use Element amendment application to: (1) amend the South County Area Plan by changing the land use category on an approximately 59 acre site from Agriculture to Recreation; (2) change the Agriculture and Open Space Element land use designation from Small Lot Rural to Urban Lands; and (3) disestablish to agricultural preserve on the site. The site is located on the south side of Pomeroy Road, between Calle Fresa and Camino Caballo, northwest of the community of Nipomo. The purpose of this request is to allow development of 30 single family residences and up to 30 secondary residences with the remainder to be used for community recreational fields and trails. Supervisorial District No. 4.</p>	CON	07/24/2006
2004012061	<p>Tuolumne Rancheria, Fee-to-Trust Action Bureau of Indian Affairs, Sacramento Area --Tuolumne The proposed action consists of several types of development for the proposed trust parcels. Residential development includes single-family housing for tribal members and a 30- to 40-room, 30,000 square-foot lodge for tribal guests. Lots will range from two to five acres in size, and approximately 62 lots are planned. Houses will range in size from approximately 1,500 to 3,000 square feet. A combined 12,000 square-foot tribal security and fire station is proposed to increase emergency response services on the Rancheria and nearby communities. The station would provide security, fire suppression, and emergency services for the Tribe, and would include approximately five firefighters and five security officers. A licensed paramedic would also be stationed at the facility. A 12,000 square-foot tribal senior center is also proposed for the Tribe's elders to use for meetings, recreation, and presentations. Lastly, several infrastructure projects are proposed to make developments on the proposed trust parcels possible, including paved road ways, water and wastewater lines, leach fields, and other utilities. All proposed roads would be paved with asphalt. Storm drains and curbs will be constructed to minimize erosion. Three open-space areas proposed to be set aside from development and managed under a Conservation Management Plan. These areas, totaling approximately 74.2 acres, contain sensitive biological and cultural resources that the Tribal Government considers important to conserve, and the Tribe has passed a resolution to protect these areas from development. A final component of the proposed action is to implement several mitigation measures and conservation policies to protect water, air, biological, cultural, and other resources. These policies include best management practices to protect water quality during construction and mitigation measures to minimize adverse effects to resources, protect resources during construction, and provide compensation where adverse effects cannot be avoided. The fee-to-trust conveyance consists of five parcels totaling 297.18 acres.</p>	EA	08/03/2006

	buildings and re-examining underutilized areas of the campus.		
	Alternative B, the Extended Campus Plan adds an area of land approximately 0.3 miles southeast on Eldridge Avenue at the intersection of Harding Street. This concept plan places several program areas at this location and retains a similar plan on the existing campus.		
2006071001	Tipton Community Plan Tulare County Resource Management Agency --Tulare Adoption of the Tipton Community Plan includes amendments to four elements of the Tulare County General Plan: 1. Amendment of the Land Use Element to incorporate the land use designations contained in the proposed Tipton Community Plan; 2. Amendment of the Circulation Element to incorporate circulation plan designations contained in the proposed plan; 3. Amendment of the Urban Boundaries Element to establish an Urban Development Boundary for Tipton and supersede the existing Urban Area and Urban Improvement Boundaries, as set forth in the Urban Boundaries Element, an element of the Tulare County General Plan, adopted by the Tulare County Board of Supervisors, July 2, 1974; and 4. Amendment of the Open Space Element to modify the "Urban Expansion Area" for the community of Tipton to reflect the new Urban Development Boundary.	NOP	08/01/2006
2006071002	Tres Cerritos East Specific Plan Amendment, City of Hemet, California Hemet, City of Hemet--Riverside The Tres Cerritos East Revised Specific Plan Amendment (TCESPA) SPA 06-1 is the second of two planned amendments to the adopted Hemet Valley Country Club Estates (HVCCE) Specific Plan 90-9. This amendment focuses on the eastern portion of the adopted Specific Plan covering 154.7 acres of land that would include the development of 787 units, 7-acres of parks, 2-acres of natural open space, a recreation center, a linear park along a drainage easement, and 38,500 square feet of drainage facilities.	NOP	08/01/2006
2006071004	Dally General Plan Amendment ED05-090, LRP2004-00018 San Luis Obispo County Paso Robles--San Luis Obispo Request by Robert Dally and Ole Viborg for an amendment to the El Pomar Area Plan of the Land Use Element by changing the land use category on an approximately 44 acre site from Agriculture to Residential Rural. Subsequently, the applicants would subdivide the 44 acre parcel into five 2.5 acre parcels, one 5 acre parcel and one 26.5 acre parcel. In addition, the applicants propose to subdivide an adjacent 15.6 acre parcel into three lots of 5.2 acres. Subdivision of that parcel into lots smaller than 7 acres requires removal of an existing area plan standard.	NOP	08/01/2006
2006071008	Lompoc Wind Energy Project Santa Barbara County Lompoc--Santa Barbara The applicant has proposed to construct a wind energy generation facility on private agricultural properties adjacent to San Miguelito Road. A new power line would be constructed by PG&E from the project site to the southeast corner of Lompoc, where it would tie to an existing power line outside PG&E's Cabrillo	NOP	08/01/2006

	Substation. The project would include 60-80 wind turbine generators, 315-490 feet high, which would generate a total of 80-120 megawatts of electricity. The project would include new onsite gravel access roads and improvement of existing farm roads, an operations and maintenance building, a new onsite electrical substation, electrical lines, and other ancillary facilities. The proposed project includes an amendment to the County's Inland Zoning Ordinance provisions pertaining to Height and Ridgeline and Hillside Development Guidelines.		
2006071006	Mid-Valley Sanitary Landfill Solid Waste Facilities Permit Revision San Bernardino County Rialto--San Bernardino The County of San Bernardino Solid Waste Management Division (SWMD) proposes that the permitted operating hours of the landfill be extended from 7:00 pm to 1:00 am Monday through Saturday and the hours of waste acceptance be extended from 5:00 pm to 12:00 am Monday through Saturday in order to allow additional time for on-site activities such as partial closure, cell construction and general site maintenance and construction, and better serve the region to reduce the amount of time commercial haul vehicles are queued up at the scale house. Extending the hours of operation will allow SWMD and its transfer station operators (Burrtec, Inc.) to be more flexible as to when the transfer trucks arrive at the landfill. This will also allow other waste haulers to better manage time of arrival/departure at the landfill.	Neg	08/01/2006
2006071007	Nisqualli Road Street Improvement Project Victorville, City of Victorville--San Bernardino Nisqualli Road exists primarily as a two-lane road with dirt shoulders that traverses a residential area in the southeasterly portion of the City of Victorville. Nisqualli Road extends in an east/west direction from just east of Hesperia Road to Mariposa Road which is adjacent to and parallels the I-15 Freeway. The City of Victorville General Plan (Circulation Element) designates Nisqualli Road as an Arterial roadway. Arterials have an 84-foot right-of-way with four traffic lanes, two parking lanes, and curb and gutter. The proposed road improvements will extend from about 200 feet westerly of Balsam Road easterly to a location about 300 feet westerly of Hesperia Road. From this point to Hesperia Road the existing road section will be repaved (rehabilitated). Total length of the proposed new roadway is approximately 12,160 lineal feet, or 2.30 miles. Minor property acquisition will be required along much of the road alignment, including some drive-way access to individual homes that have encroached into the proposed Nisqualli Road right-of-way.	Neg	08/01/2006
2006072003	Live Oak Bridge and Toyon Water System Improvements, Anderson Lake County Park Santa Clara County Parks and Recreation Department Morgan Hill--Santa Clara Construction of a bridge and water system improvements in the Live Oak and Toyon Picnic Areas in Anderson Lake County Park. Live Oak Bridge component - construct a bridge across Coyote Creek to access the existing Live Oak picnic area. Access formerly via an earthen fill crossing over two culverts. Due to controlled floodwater release from Anderson Reservoir by Santa Clara Valley Water District, this crossing washed out.	Neg	08/01/2006

NOE	
2006078006	Osage Inc. 60th Street West Removal Action Workplan Toxic Substances Control, Department of Unincorporated--Kern DTSC has approved a draft Removal Action Work Plan (RAW) for the Osage Inc. 60th Street West Site. The RAW summarizes the findings of site investigation activities, identifies Chemicals of Concern (COCs), assesses risk for the purposes of determining the need for remedial action and identifying appropriate cleanup goals, and defines the extent of environmental media which must be managed in order to protect human health and the environment. The RAW then evaluates removal action alternatives and selects the alternative that best meets the criteria of effectiveness, implementability and costs as required under applicable law, regulation and guidance. The alternative selected for implementation at the Site consists of the excavation and off-site disposal of contaminated soil and use of administrative controls (deed restriction) in a manner that will allow for future industrial/commercial use of the Site, but not sensitive uses such as residences, schools or hospitals. The risk assessment in the DTSC approved Remedial Investigation and Feasibility Study determined the COCs identified in the RAW as follows: arsenic, cadmium, lead, dioxin, and furans.	NOE	
2006078007	Safety-Kleen Systems, Sacramento Accumulation Center Hazardous Waste Facility Permit Renewal Toxic Substances Control, Department of Sacramento--Sacramento Safety-Kleen Systems, Incorporated has received a Hazardous Waste Permit to continue its hazardous waste operation at the Sacramento Accumulation Center (facility). This means that the facility operates the storage of hazardous wastes in one underground (15,000 gallons mineral spirit tank), in the Drum/Container Storage Area (22,500 gallons). The facility also operates the Return and Fill Unit	NOE

	Fill intermittent drainages associated with mass grading; and installing of infrastructure for a residential subdivision.		
2002031088	Viejas Boulevard Bridge Replacement Project (1C8397) San Diego County --San Diego The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2003-0141-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, County of San Diego, Department of Public Works. The applicant proposes to alter the stream to replace the existing bridge where Viejas Boulevard crosses the Sweetwater River. The planned bridge will span 120 feet and be supported by two abutments spaced 125 feet apart. The north abutment will be 14 feet north of the existing abutment and the south abutment will be 26 feet south of the existing abutment. The south side of the Sweetwater River Channel will be widened at the proposed bridge site to accommodate the new position of the abutment and allow for Q100 flood passage. Excavation for lengthening the bridge and channel grading of the streambed upstream and downstream of the bridge to accommodate the 100-year flood will be 4,800 cubic yards. There will be 412 cubic yards of structural backfill and 901 cubic yards of structural concrete for the bridge footing. The deck will be concrete and 45.5 feet wide with two travel lanes, shoulder lanes, and a pedestrian walkway separated by an inboard railing. The planned bridge will be located in the same location and alignment as the existing bridge, with no increase in vehicle capacity. To maintain access across the Sweetwater River during construction, traffic will be rerouted onto a temporary detour road to be constructed east (downstream) of the existing bridge using temporary fill. Three temporary culverts will be installed underneath the detour road to direct stream-flow and to allow for the movement of wildlife through the construction area. The culverts will be 8 feet in diameter with a 3-foot soft bottom sand base. Silt fencing and directional snow fencing will be installed to guide wildlife away from the roadway and through the crossings. The detour road will be removed upon completion of the bridge and the entire construction area will be restored and revegetated to pre-construction conditions. Native riparian habitats found on site include: southern willow scrub, southern coast live oak riparian forest, open water, and floodway.	NOD

2006031067	Central Avenue Flood Control Improvement Project San Diego County --San Diego DFG is intending to execute a Lake and Streambed Alteration Agreement (SAA# 1600-2006-0093-R5) pursuant to Section 1602 of the Fish and Game Code to the project applicant, County of San Diego, Department of Public Works. The applicant proposes to alter the stream to construct the Central Avenue Flood Control Improvement Project. Project activities include: construction of a 450-foot-long triple 16' x 5' reinforced concrete box (RCB) culvert to replace the existing drainage channel, driveway structures, and headwall structure at Central Avenue; construction of a 24" x 24" catch basin at each of four property lines on the northern side of Central Avenue; installation of a reinforced concrete apron south of the Central Avenue crossing where the RCB culverts transition to an open channel; installation of an energy dissipater consisting of a cellular mat and turf reinforcement mat immediately downstream of the concrete apron; construction of an 8-foot-high concrete masonry unit block floodwall along the banks of the downstream earthen channel to the Dawsonia Street over-crossing; and improvements to the inlet to the existing box culvert under Dawsonia Street consisting of a 20-foot-long reinforced concrete apron preceded by approximately 130 linear feet of geofabric on the bed and armor flex on the banks.	NOD	
2006041170	Brand Landfill Stormdrain Re-alignment Project Glendale, City of Glendale--Los Angeles The project involves the installation of a new concrete pipe within the existing access road (northerly side of landfill) for a distance of approximately 1,060 feet. The new concrete pipe is intended to replace the existing pipe that runs underneath the landfill, which was installed in 1965. The existing pipe was damaged as a result of heavy rains that occurred during the 2004-2005 winter season and is not repairable.	NOD	
2006042060	Rancho Rogelio Subdivision Vacaville, City of Vacaville--Solano The applicant is proposing to subdivide a 20.93 acre property into 40 single-family residential lots. Thirty-nine of the residential lots will have a minimum size of 10,000 square feet. The residential lot located adjacent to Browns Valley Road will have a minimum size of one acre. All residential lots will be oriented towards interior streets and no homes will utilize Browns Valley Road for direct access. A north/south collector street will transverse the project site from which four cul-de-sacs will stem. As part of the project, the developer is proposing to dedicate 4.72 acres of land to construct a regional storm water detention basin capable of retaining 16.1-acre feet of storm water run-off. This detention basin, proposed immediately adjacent to Browns Valley Road at the southeastern corner of the property, is intended to relieve localized and downstream flooding. If approved, the developer will also dedicate right-of-way along the eastern property line to widen Browns Valley Road.	NOD

<u>Documents Received on Wednesday, July 05, 2006</u>			
2006078013	Fetzer Gravel Extraction Fish & Game #3 Ukiah--Mendocino The proposed project involves gravel extraction activities within the Russian River, Mendocino County (Section 07; T13N; R11W). Applicant proposes to remove the total of 325 cubic yards of gravel over a three year period. Extraction activities shall occur from an existing site and will not involve vegetation removal. SAA# 1600-2005-0068-3.	NOE	
2006078014	Residential Driveway El Pintado Fish & Game #3 Danville--Contra Costa The project includes installation of a 24 or 30-inch corrugated metal culvert to provide access to a new residence at 289 El Pinto Road. SAA #1600-2006-0187-3.	NOE	
2006078015	Haiku Russian River Diversion Fish & Game #3 Ukiah--Mendocino The proposed project involves the diversion of water from two pumps at one site on the Russian River for irrigation and frost protection. The site is located at 5750 Old River Road, Ukiah, California (Section 11, T14N R12W MDB&M Elledge Peak USGS Quad). Pumps are installed after March 1 and removed prior to November 1 of each year. Pump intakes are lowered on an existing rail system and no vegetation or excavation is required for installation. SAA#1600-2005-0765-3.	NOE	
2006078016	Haiku Morrison Creek Gravel Extraction Fish & Game #3 Ukiah--Mendocino The proposed project involves gravel extraction within the Morrison Creek, tributary to the Russian River, Mendocino County (Section 11; T14N; R12W MDB&M Elledge Peak USGS Quad). Operator proposes the removal of 500 total cubic yards of gravel over a five-year period. Extraction activities shall occur from an existing site and will not involve vegetation removal. SAA # 1600-2005-0764-3.	NOE	
2006078017	La Ribera Russian River Diversion Fish & Game #3 Ukiah--Mendocino The proposed project involves the diversion of water from three pumps at two sites on the Russian River for irrigation and frost protection. The site is located at 6800B Old River Road, Ukiah, California (Section 14, T14N R12W MDB&M Elledge Peak USGS Quad). Pumps are installed after March 1 and removed prior to November 1 of each year. SAA# 1600-2006-0038-3.	NOE	
2006078018	Valley Memorial Wetland Swale Restoration Project Fish & Game #3 Novato--Marin The proposed project involves work on a reach of an unnamed stream channel that will restore hydraulic capacity, biological functions and habitat, as well as water quality. Elements of the project include widening and deepening the existing natural channel along several areas of the unnamed stream, re-contouring and stabilizing stream bank slopes utilizing a variety of biotechnical slope restoration methods, and removing several invasive tree species as well as replanting the bed and bank with appropriate native species. SAA # 1600-2006-0293-3.	NOE

2006078024	Acquisition of 828 Santa Barbara Street Property General Services, Department of Santa Barbara--Santa Barbara The proposed project consists of the acquisition of a residential parcel at 828 Santa Barbara Street in downtown Santa Barbara. The property consists of a small, single-story residential structure with a large detached commercial garage. The purpose of acquisition is to assure the property will remain in its current residential use since this site may provide an opportunity for the future restoration of historic structures associated with the adjacent Santa Barbara Presidio and Phelan Adobe.	NOE	
2006078025	Barrett Dam, No. 8 Water Resources, Department of, Division of Dams San Diego--San Diego Replacement of four 30 inch gate valves and three operating platforms in outlet tower. Replacement of 16 inch gate valve in drainage gallery.	NOE	
2006078026	El Capitan Power Pole Replacement Parks and Recreation, Department of --Santa Barbara Southern California Edison needs to replace pole 418589E on the existing Mist circuit, due to deterioration. The crew will use the existing trail near the railroad crossing to hike to the pole. No new access will be created. The new pole will be set approximately 6' deep within 5' of the existing pole, in undisturbed soil.	NOE	
2006078027	Rock Fire Pit Replacement Parks and Recreation, Department of --Sonoma Replace two existing non-historic rock fire pits within Fort Ross State Historic Park. The replacements will be constructed on a concrete pad with custom bricks (using historic Russian bricks found at the orchard excavation site as models). All work will be within the footprint of the existing rock fire pits and shall be similar in design and materials to that of the existing structures. No new excavation is required. Project will support continued use and maintenance of a publicly-owned facility.	NOE	
2006078028	Class 1* Permit Modification and Class 1 Permit Modifications for the Hazardous Waste Facility Complex Located at the Naval Air Station North Island Toxic Substances Control, Department of San Diego, Coronado--San Diego The Navy requested a class 1* permit modification (which requires DTSC's prior approval for the modification) to the Naval Air Station, North Island Hazardous Waste Facility Permit on June 17, 2005 and submitted a revised request on January 23, 2006. The major proposed modifications requested by the Navy are described below: 1. Change in the facility's owner and operator 2. Clarification to a storage unit 3. Addition of three "back-up" tanks 4. Information updates for hazardous waste treatment tanks 5. Administrative updates and changes.	NOE

2006078030	<p>Temporary Emergency Permit to Detonate Unstable, Deteriorated Dynamite Found in an Abandoned Mine Shaft at the Defense Mine, Inyo County</p> <p>Toxic Substances Control, Department of Unincorporated--Inyo</p> <p>A temporary emergency Hazardous Waste Treatment Permit has been granted to the United States Bureau of Land Management (BLM) to treat by detonation less than one case of deteriorated nitroglycerin based dynamite found at the abandoned Defense Mine, Inyo County. The mine is located approximately 8 miles south of Panamint Springs and 7.5 miles east southeast of Darwin.</p> <p>The dynamite was discovered and reported on June 12, 2006. Following consultation with the Explosive Ordinance Disposal (EOD) specialists from the adjacent Naval Air Weapons Station, China Lake, the BLM determined that the dynamite is deteriorated and unstable and, due to its shock sensitive properties, must be treated on site. The BLM has also determined that the dynamite must be treated soon to avoid the risk of injury to the general public who may be exploring the site. The site is identified on jeep trail maps and is accessible via four wheel drive vehicles. The permit is effective from July 3, 2006 to July 31, 2006. The detonation will take place as personnel and weather conditions permit.</p> <p>The activity will take place in the mine shaft where the dynamite was discovered, between 150 and 200 feet from the entrance. Treatment will be carried out by the Navy EOD, following standard Department of Defense procedures. BLM staff will secure the roads and provide a fire crew during the operation. Once activities have been completed, the BLM will permanently secure the entrance to this shaft.</p>	NOE	
2006078031	<p>Issue Right of Entry and Easement to Lake Oroville Area Public Utility District</p> <p>Parks and Recreation, Department of --Butte</p> <p>Issue a Right of Entry (ROE) Permit to Lake Oroville Area Public Utility District (LOAPUD) to enter upon those specified lands of Lake Oroville State Recreation Area for geotechnical investigations of three pump stations and the surrounding areas in preparation of transfer of a sewer system. Work will include use of a backhoe and earth-moving equipment. ROE permit will begin June 15, 2006 and terminate once a permanent easement is recorded with the County Recorder's Office.</p>	NOE

2006074001	Programmatic EIS for Implementation of the Nationwide Automatic Identification System Project U.S. Coast Guard -- The action assessed in the draft PEIS is the proposed implementation of the Nationwide Automatic Identification System (NAIS) project. The proposed implementation of the NAIS project would involve installing receivers, transmitters, and related equipment on towers or other structures et up to 450 sites at locations along 95,000 miles of coastline and inland waterways, as well as the use of selected remote platforms such as satellites, oil and gas platforms, and data buoys. The NAIS project is a U. S. Department of Homeland Security Level 1 Investment and USCG major systems acquisition.	EIS	08/14/2006
2005112094	Kuelto / Noble Vineyard Conversion Napa County St. Helena--Napa The project includes earthmoving activity associated with development of a new vineyard, including installation of erosion control measures as detailed in Erosion Control Plan # 00399-ECPA, available for review at the Napa County Conservation, Development and Planning Department. Slopes range from 1% to 31%, with an average slope of 21%. Grading would consist of land smoothing, ripping and disking. There would be no off-site spoils. Water would be available from existing wells. Erosion control plan #00399-ECPA has been prepared and includes silt fencing, straw mulch, straw wattles, diversion ditches, drop inlets, straw bale dikes, earthen waterbars, rock slope protection and permanent no-till cover crop. Total area proposed for vineyard project is 5.06 +/- acres on a 212.96-acre holding located on the north side of Sage Canyon Road approximately two miles east of its intersection with Chiles Pope Valley Road. The parcel is located in an Agricultural Watershed (AW) zoning district, with a Napa County General Plan designation of Agricultural Resource. Access would be from an existing road off of Sage Canyon Road. No future projects are anticipated for the parcel at this time.	FIN	
2006041014	San Joaquin Rail Corridor Capacity Improvement Project Caltrans, Planning Shafter--Kern The proposal is to install a second track from Jastro to Shafter to enhance track efficiency within the San Joaquin Rail Corridor. The project will include installing fill adjustment to the existing track, installing the second track over the whole alignment, installing new sidings where needed, upgrading and replacing existing signal systems, and purchase of about 27 acres of new right-of-way along the approximate 108-mile alignment. 2006021132	Reedley Waste Water Treatment Plant Reedley, City of Reedley--Fresno The City of Reedley Wastewater Treatment Plant is located at 1295 W. Olson, Reedley, CA 93654, Fresno County. The project consists of the adoption of the proposed 20-year Master Plan for the City of Reedley Wastewater Treatment Plant (WWTP) and the associated expansion. The project site is located within the boundaires of the WWTP, which is approximately 1.5 miles southwest of the center of the City, on the west bank of the Kings River, south of Olson and Huntsman Avenues. The proposed project will increase WWTP capacity to 7.0 million gallons per day (mgd) in two phases over the 20-year planning period. Phase I will increase capacity to 5.0 mgd and should provide sufficient capacity through the year 2022. As maximum month flows approach 5.0 mgd, the City would begin planning, designing and construction of Phase 2 which will increase capacity to 7.0 mgd.	EIR	08/21/2006
2006071020	Imperial Promenade La Habra, City of Fullerton--Orange The proposed project consists of the redevelopment of the commercial site. The project proposes to utilize the existing commercial structure for shopping center tenants by partitioning the interior, enclosing the uncovered portions of the garden center for retail space and updating the architectural elements on the exterior of the building. In addition, two new development pads will be constructed as free-standing buildings to accommodate additional commercial tenants.	MND	08/07/2006

2001081039	<p>Central Los Angeles New Middle School #4 Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>On April 23, 2002, the Los Angeles Unified School District (LAUSD) certified the Central Los Angeles Area New Middle School No. 4 Final EIR and approved the project. Since that time, the Central Los Angeles Area New Middle School No. 4 (CLAMS No. 4) project has been revised to include the operation of two charter schools by Green Dot Public Schools (Green Dot) at the CLAMS No. 4 site. The Green Dot charter schools will serve 280 LAUSD students in grades nine and ten that reside primarily within the South Los Angeles New High School No. 1 attendance area. The enrollment capacity for the CLAMS No. 4 site will not increase with the addition of the Green Dot Public Schools. The addition of the Green Dot schools, however, will change the grade structure at the CLAMS No. 4 site from grades six through eight, as identified in the certified EIR, to grades six through ten. The addition of Green Dot schools does not involve any physical changes to the CLAMS No. 4 site.</p>	NOD	
2001101113	<p>Conditional Use Permit 2001-043, Variance 2001-044, and Parcel Map Application 2001-062 (TPM #15705) Big Bear Lake, City of Big Bear Lake--San Bernardino</p> <p>The applications propose to combine five existing parcels into one 2.87-acre parcel for the development of a 91-guest room, 65,460 square foot hotel, with ancillary uses of 2,887 square feet of banquet and meeting rooms, a 3,016 square foot restaurant and lounge with outdoor patio, an indoor swimming pool, spa, sauna and exercise room, a 600 square foot maintenance building, and 171 on-site parking spaces. A Variance is requested to exceed the City's 40-foot height limit with a building height of approximately 49 feet.</p>	NOD	
2001112109	<p>Hastings College of the Law Parking Garage Project Hastings College of The Law San Francisco--San Francisco</p> <p>The proposed project involves construction of a parking garage with ground-level retail and below-grade storage on the corner of Golden Gate Avenue and Larkin Street, and an adjacent development pad for potential future construction. The proposed parking garage project, on the southeast corner of Golden Gate Avenue and Larkin Street, would replace an existing surface parking lot currently containing about 155 parking spaces. The existing parking lot would be replaced with a parking structure containing approximately 395 spaces and 9,400 gross squarefeet (gsf) of ground-floor retail. There would be one level below grade for approximately 22,506 gsf of storage space. The structure would be seven and one half levels above grade, totaling 177,600 gsf. The parking structure would be approximately 68 feet tall, measured from the Golden Gate Avenue/Larkin Street corner to the top of the elevator towers. The proposed project would include construction of a development pad on the adjacent parcels to accommodate potential future development at the project site. The development pad would be approximately 12,000 sf (about 90 feet by 135 feet) with approximately 16-foot tall perimeter retaining walls on the south, east, and north sides that would abut the proposed parking garage on the west. Development pad construction would include excavation, grading, leveling, and construction of the retaining walls so that the site would be prepared for future development. Although not part of the proposed project, the SEIR also examines two potential options for future development on this pad: (a) a community recreational facility; (b) a</p>	NOD

2006078048	PSR Lodge Library Refurbish Project (05-06-SD-47) Parks and Recreation, Department of --San Diego This project consists of the refurbishing of the Torrey Pines State Reserve library/room in the Lodge/Visitor Center located at Torrey Pines State Reserve. The work will include: painting the walls and ceiling, and resealing the floors; removing existing bookcases and replace with new units that are anchored to existing wall mounts; reroute existing exposed electrical conduit under existing sub floor, and replacing existing lighting fixtures with more aesthetically acceptable lighting fixtures.	NOE	
2006078049	Squaw Creek Bridge Replacement on Squaw Valley Road Fish & Game #2 --Placer This Streambed Alteration Agreement pertains to the proposed bridge superstructure with a single span, cast in-place, prestressed concrete slab. The bridge abutments will not be replaced.	NOE	
2006078050	Davis Ranch Seasonal Drainage Fish & Game #2 --Yuba Installation of two culvert-type driveway crossings across two unnamed seasonal drainage courses in order to provide primary access to provide primary access to the site.	NOE	
2006078051	Kuiper - Tidegate and Culvert Replacement Project WDID No. 1B06045WNHU Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Arcata--Humboldt The existing 13-year old 36-inch diameter 40-foot long culvert structure has a use-life expectancy of 14-16 years. Culvert and tidegate provides flood control and dike erosion prevention for the area which includes county roads and private property. Project area access is from the dike crest. A temporary sheet pile cofferdam provides erosion control. New structure will be placed in the exact location as existing structure.	NOE	
2006078052	Calleguas Sediment Removal Fish & Game #5 --Ventura The Operator intends to alter Calleguas Creek by excavating 650,000 cubic yards of accumulated sediment from the creek using excavators, backhoes, bull dozers and haul trucks. Approximately 2 to 4 feet of accumulated sediment will be removed from the channel bottom. Water will be diverted within the channel via an excavated channel or a temporary dike with the use of a screened pump. The pump shall be placed in a 4 foot diameter, screened area to prevent the take of any aquatic species. Several temporary earth filled access ramps will be built along the levees and then removed upon completion of the work. The operator shall leave an approximately 12 foot wide strip of vegetation, which may be mowed, and shall run parallel to the channel, along the toe of one bank, for the entire length of the project. This strip will alternate sides of the low flow channel annually, if needed.	NOE

	lanes in each direction.		
2006071042	Zone Change No. 2005-001 to Establish a Specific Plan (Bridle Path Estates at Apple Valley) Apple Valley, City of Apple Valley--San Bernardino Bridle Path Estates, L.P. has initiated Zone Change No. 2005-001 and Specific Plan No. 2006-001. The request is for a zone change from Residential Very Low Density (R-VLD, 1 du/5acres) to Specific Plan (SP). The Specific Plan, "Bridle Path Estates at Apple Valley", includes Single-Family Residential (R-SF, approximately 452 acres) and Equestrian Residential (R-EQ, approximately 99 acres). Both R-SF and R-EQ permit 1 dwelling per minimum half acre lot which would allow a total of approximately 1,102 single-family lots. The Specific Plan contains existing Open Space-Conservation (OS-C, approximately 60 acres) and Resource Extraction, (I-RE, approximately 53 acres) and a proposed five acre private neighborhood park, multiple use trail system and fire station site. Four overlay zone districts are also proposed as part of the Specific Plan. These overlay zone districts are Single-Family Attached (SFA), General Commercial (C-G), Neighborhood Park (OS-R) and Equestrian Arena (EA-O).	MND	08/08/2006
2006071043	SPA #9, ZCC #35, Map 101-23 Kern County Planning Department Bakersfield--Kern Change 7.5 acres of residentially designated land to light industrial.	MND	08/09/2006
2006072028	Fennell Minor Subdivision, Coastal Development and Special Permit Humboldt County Community Development Services --Humboldt A Parcel Map subdivision to divide an approximately 3.7 acre parcel into three parcels of approximately 3.7 acre parcel into three parcels of approximately 15,000 square feet, 15,670 square feet and 2.95 acres. A Coastal Development Permit is required for the subdivision and the subsequent construction of a single family residence with attached garage on Parcel 1 and 3. The residences will be two story (maximum height of 30 feet) and have a maximum size of 2,000 square feet. The attached two car garages will be approximately 440 square feet in size. A Special Permit is required for an exception to the minimum parcel size, a reduction to the wetland buffer area and to allow the two existing sheds to remain on proposed Parcel 1 prior to be built as a primary residence and designating the existing residence as a second dwelling unit prior to recording the subdivision map. The parcels will be served by the Manila Community Services District.	MND	08/08/2006
2006072031	Parcel Map 05-068 Wright Shasta County Redding--Shasta Parcel Map 05-068 is located in the West Redding area on 11.97 acres on the east side of Richison Ranch Road less than one-tenth of a mile north of Towerview Circle. Rob Wright has requested approval of a three parcel land division into 3.1, 4.3, and 4.5-acre parcels.	MND	08/08/2006
2006072034	Parcel Map 06-023 Parker Shasta County Anderson--Shasta Parcel Map 06-023 is located in the Anderson area on a 37.44 acre parcel on the south side of Balls Ferry Road less than one-tenth of a mile northwest of Gaines Lane. Stephen Parker has requested approval of a four parcel land division into	MND	08/08/2008

	8.11 acre parcels with a 5.0 acre remainder.		
2006072035	Zone Amendment 06-015, Use Permit 05-039 and Reclamation Plan 05-004 - TwinMine Shasta County Redding--Shasta The applicant has requested approval of 1) an amendment of the Planned Development Zone District to include mining as a use requiring a use permit 2) a use permit for the excavation, washing, screening, crushing, and off-site transportation of sand and gravel; and 3) a reclamation plan to reclaim the extraction and processing areas as rangeland and goods.	MND	08/08/2006
2006071033	Red Rock Dairy Merced County Merced--Merced Construction and operation of a milk cow dairy to house 5,636 animals.	NOP	08/08/2006
2006071038	Jamul Tribal EIS/R Jamul Indian Village --San Diego The proposed gaming facility and hotel complex consists of 567,094 total square feet of building space. The hotel will include 400 beds in 361,900 square feet, and the casino building will cover approximately 205,194 square feet (73,469 square feet of which will be gaming floor area). Ancillary uses to the hotel and casino complex include a parking garage, fire station, tribal center, human resources facility, a wastewater treatment plant, and detention basin. Development will be phased with the construction of the casino in the first phase and the construction of the hotel approximately three years later.	NOP	08/08/2006
2006072024	Aviano Adult Community Project Antioch, City of Antioch--Contra Costa The project applicant proposes to rezone and develop an active adult community on the approximately 194-acre site with up to 570 adult single-family residential units on 73.2 acres, a 4.9-acre recreation facility, 28.9 acres of parks and landscaped areas, a 4.4-acre creek buffer area, 34.8-acres of open space, and associated parkway, roadway, and utility improvements. A medically focused Magnet High School has also been planned for development on approximately 9.5 acres of land adjacent to the southwest corner of the site; the project would construct roadway improvements and infrastructure that would serve this facility. The proposed project requires the following discretionary actions: Planned Development Zoning, Residential Development Allocations, Vesting Tentative Map, Development Agreement, Master Development Plan, Use Permit, Design Review, and Resource Agency Permits.	NOP	08/08/2006
2006072025	Newman General Plan Newman, City of Newman--Stanislaus The overall purpose of the General Plan update is to create a policy framework that articulates a vision for the City's long-term physical form and development, while preserving and enhancing quality of life for Newman residents. The key components of the General Plan update will include broad community goals for the future of Newman, objectives for meeting those community goals, and specific policies and implementing actions that will help meet the objectives. 2006072026	Site Plan and Architectural Application No. 06-08, Parcel Map No. 06-02, and Sign Application No. 06-04, and Encroachment Permit Suisun, City of Suisun City, Fairfield--Solano The project consists of three main elements including: (1) a new Wal-Mart store; (2) a new fuel station with related uses; and (3) a new sit-down restaurant.	NOP	08/08/2006
2006071034	Sale of Surplus County Property in Topanga Area Los Angeles County --Los Angeles The proposed project is for the County of Los Angeles to sell 21 parcels of land comprising 35 acres, located in Topanga, CA. The project will contain restrictions on development forbidding habitable structures, commercial land uses, agricultural land uses and specific night lighting to be built as well as other restrictions.	Neg	08/08/2006
2006071035	Well Site within the Campanile Development (Lot P of Tract 31774) Coachella Valley Water District Cathedral City--Riverside The project includes drilling, testing, casing, and developing a 2,000-gallon-per-minute domestic water well including the installation of a 250-horsepower motor, 2,000-gpm pump and other appurtenances required to tie the well and pumping plant into the domestic water distribution system. The City of Cathedral City approved a MND for the Campanile residential development, but that study did not mention this well site.	Neg	08/08/2006
2006071036	Well 5625-2 Redrill Coachella Valley Water District Palm Desert--Riverside The Well 5625-2 project includes drilling, casing, testing, and developing a 2,000 gallon-per-minute domestic water well including the installation of a 250-horsepower motor, a 2,000-gallon-per-minute pump and other aboveground and underground appurtenances required to connect the well and pumping plant to the domestic water distribution system. Well 5625-2 will be located on the same site as the existing Well 5625, which is no longer in service because of pump equipment failure. The purpose of the Well 5625-2 project is to replace Well 5625 and provide domestic water service to the Valley Pressure Zone, which includes most of Palm Desert and Rancho Mirage.	Neg	08/08/2006
2006071037	Shelter Pointe Hotel Expansion San Diego Unified Port District San Diego--San Diego The proposed Shelter Pointe Hotel expansion includes: (1) relocating and upgrading the hotel restaurant, AJ's Waterside Grille, within the facility; (2) expanding and upgrading the existing restaurant space into a banquet room, adding approximately 4,000 square feet of meeting space; (3) constructing a new swimming pool near the existing pool located south of the main hotel building; (4) constructing two new three-story "guest wings" to the north of the existing hotel on the western portion of the existing surface parking lot; (5) constructing a new parking structure at the northern end of the project site with a subsurface basement level, three above-grade levels, 253 spaces, and attached marina and housekeeping facilities; and (6) planting ornamental landscaping, including palm trees, flowering trees, and tropical flowering plants around the perimeter of the parking structure and the new guest wings consistent with existing vegetation. The project is consistent with the site's Commercial Recreation land use	Neg	08/08/2006

2006072033	Parcel Map 06-013 (Industrial Land Division Shasta County Anderson--Shasta A 16-parcel land division of industrial lands.	Neg	08/08/2006
2006072036	Parcel Map 06-021 - Weiss Shasta County --Shasta Two parcel land division of 40 acres into 15 and 25-acre parcels.	Neg	08/08/2006
2006072037	Zone Amendment 05-007 for Henderson Shasta County --Shasta The applicant has requested to rezone four separate areas (totaling 2.99 acres) of a 160 acre parcel from the Timber Production (TP) District to the Commercial Recreation (CR) District to permit a commercial destination fishing facility, which could accommodate up to 13 guest with 2 employees at any given time. The average would be 6 guests and two employees. The rezoned areas would include a main lodge, log cabin, cottage, and barn. The project is located in the Big Bend area adjacent to the south side of Hagen Flat Road, approximately 2 miles east of the intersection of Big Bend and Hagen Flat Road.	Neg	08/08/2006
2006072038	Parcel Map 05-063 (Kauffroath) Shasta County --Shasta A three-parcel land division of 17.9 acres into 5.50, 5.50, and 5.80-acre parcels.	Neg	08/08/2006
2006072039	Magnolia Drive/State Route 221 Intersection Improvement Project Napa Valley College Napa--Napa Napa Valley College proposes to reconstruct the existing one-way Magnolia Drive/Napa-Vallejo Highway (SR-221) exit intersection into a two-way intersection (entrance/exit) and abandon one-way entrance hook ramp located just south of the intersection. In addition, the proposed project would reconstruct and realign approximately 1,250 feet of James Diemer Drive at the north end of campus, add an additional 38,170 square feet to the parking lot located adjacent to James Diemer Drive, construct a round-a-bout at the James Diemer Drive/Magnolia Drive intersection and construct various pedestrian and maintenance vehicle improvements on the campus.	Neg	08/08/2006
1995061007	Gregory Canyon Landfill EIR San Diego County Pala, Pauma Valley--San Diego The Gregory Canyon Landfill project includes the construction and operation of a new Class III municipal solid waste landfill. A legal challenge to the certified EIR was filed. The court ruled that the 2003 EIR was defective in three respects: (1) failure to consider the 2003 Traffic Needs Assessment of Tribal Development Projects in the San Diego Region; (2) water supply; and (3) biological mitigations as they related to Proposition C. On January 20, 2006, the court issued a Peremptory Writ of Mandate directing the Director of DEH to rescind his prior action certifying the EIR. Limited portions of the 2003 EIR have been revised to address the deficiencies noted by the court, to update the project description and to analyze and evaluate the project based on several new studies that have been completed. 1998052052	Pacific Herring Commercial Fishing Regulations Fish & Game Commission -- The proposed project is a body of proposed regulations governing the commercial harvest of herring-for-roe products, the harvest of herring eggs-on-kelp, and the harvest of herring as fresh fish, for bait, and pet food. The proposed project takes the form of recommendations for continuation, amendment, or change to an existing body of regulations in effect since December 2005.	SIR	08/23/2006
2005121062	La Costa Village Center Townhomes - GPA 04-10, ZC 04-06, LCPA 04-09, CT 04-08, 04-07, CDP 04-17, and CP 04-03 Carlsbad, City of Carlsbad--San Diego Request for a MND and Mitigation Monitoring and Reporting Program, General Plan Amendment, Local Coastal Program Amendment, and Zone Change to change the General Plan and Local Coastal Program Land Use designations from Residential Medium (RM, 4-8 du/ac) to Residential Medium-High (RMH, 8-15 du/ac) and Open Space (OS), and to change the Citywide Zoning and Local Coastal Program Zoning designations from Limited Control (L-C) to Residential Density-Multiple with a Qualified Development Overlay (RD-M-Q) and Open Space (OS), and a Tentative Tract Map, Site Development Permit, Coastal Development Permit, Condominium Permit, and Special Use Permit to subdivide and grade a 14.4 acre site into 2 residential lots for 53 condominium units, 1 driveway lot, and 1 open space lot.	NOD	
2006032097	Ali and Mahlie Hooshnam- Minor Subdivision- MS0622C Del Norte County Planning Department Crescent City--Del Norte Minor subdivision of a 49.40-acre parcel into one parcel and a remainder approximately 1.0 acre and 48.4 acres in size. The project site is located on the south side of State Street, off of Elk Valley Road and is across from the Del Norte County Transfer Station. Both proposed parcels are developed with residences and other accessory buildings. The General Plan Land Use Designation for the parent parcel is General Commercial, Light Industrial and Resource Conservation Area. The Zone designation for the parent parcel is C-4 (General Commercial), M (Manufacturing), and RCA-1 (General Designated Resource Conservation District). The project site is served by public water and sewer.	NOD	
2006041093	New Salton City Elementary School Project Coachella Valley Unified School District --Imperial The Coachella Valley Unified School District ("District") proposes to build and operate a K-6 Elementary School ("Project"). The Project would involve the construction or installation of stucco modular buildings and operations of an elementary school on approximately 14 or 15-acre parcels of real property identified as Imperial County APN 010-202-01 through 09, inclusive, 010-202-16, 010-020-17, and 010-310-01 through 08, inclusive. From time to time additional interim portable classrooms may be added. The District currently owns approximately 11 acres of the project site and will acquire the remaining acres as part of the project. The project will involve the construction or installation of classrooms and supporting facilities to accommodate approximately 600 students in grades K-6, and construction or installation of administration and library buildings; a serving kitchen; an outdoor food shelter; a multi-purpose auditorium; parking facilities for visitors and staff with approximately 60 to 70 spaces on site;	NOD

2006012007	Yuki Pear Orchard Removal Sacramento County Sacramento--Sacramento The project proposes the following actions to the project site: 1. Remove the pear orchard and all other trees on the site and on the Airport Operating Area adjacent to the site using excavations or similar equipment. The trees would be chipped or disposed of in the most appropriate manner. It is anticipated that a wood recycling feasibility analysis will be conducted. 2. Replace the orchard with a grass monoculture similar to the grass in the airfield, or Airport Operating Area (AOA). The grass will be maintained through periodic disking to eliminate habitat for wildlife species that regularly intrude into the nearby AOA, thereby posing a hazard to safe aircraft operations. 3. The existing airfield perimeter fence that forms the northern and eastern sides of the property (bounded by Delta and Walnut Roads, respectively) will be removed. A new, higher airport perimeter fence compliant with Federal Aviation Administration (FAA) requirements will be installed in such a manner that the entire property will be completely enclosed within the secure airfield. 4. Houses and other farm structures will be removed by demolition or through a joint training exercise for Aircraft Rescue and Fire Fighting (ARFF) and City of	EIR	08/25/2006

	Sacramento Fire Stations 3 and 30. The decision to proceed with such a training exercise will be based on the results of an analysis of lead-based paint and asbestos containing materials in the structures.		
2003031036	MarBorg C&D Recycling and Transfer Facility Santa Barbara County Santa Barbara--Santa Barbara MarBorg C&D Recycling and Transfer Facility has applied for a solid waste facility permit revision to increase their daily tonnage; include the handling of electronic wastes, inert debris, and tires; and add holidays to their hours of operation.	FIN	08/10/2006
2006071054	TPM 20929, Log No. 05-02-011; Caney Minor Subdivision San Diego County Department of Planning and Land Use San Diego--San Diego The project is a minor subdivision of a 6.01-acre lot into two residential parcels with sizes of 2.65 and 2.8 acres net. Both parcels will have access to an existing public road (Cole Grade Road). The project will be served by the Valley Center Fire Protection District, the Valley Center Municipal Water District, and individual on-site septic systems. The project will result in the construction of two single-family residences and associated accessory structures, driveways and landscaping.	MND	08/10/2006
2006071055	Vibiana Lofts Project (ENV-2005-8446-MND) Los Angeles City Planning Department Los Angeles, City of--Los Angeles The construction of a new 41-story building, consisting of a 36-story residential tower with 300 condominium units, approximately 3,400 square foot of project-serving retail uses, and a parking garage, including five stories above-ground and five stories below-ground, on a portion of the site adjacent to the historic former St. Vibiana's Cathedral and Rectory, which will be used as a commercial assembly space.	MND	08/10/2006
2006072068	Rock Springs Pipeline Maintenance Project Placer County Water Agency --Placer Remove 20 feet of 16-inch diameter welded steel pipeline and a 4-inch blow-off valve and replace it with new 16-inch diameter steel pipe and a 6-inch blow-off valve. PCWA is proposing to conduct this maintenance activity during the fall months of 2006. The maintenance work would require approximately 4 working days.	MND	
2006072069	Dunmore Homes - Orchard Subdivision Phase 8 (TSTM2006-0005, SPA2006-0002 & CZ2006-0002) Yuba County Marysville--Yuba The applicant proposes a 47 lot Tentative Subdivision Map on 9.87 acres of vacant land for a density of 4.76 du/acre. The lot sizes will range from 6,400 sf to 11,500 sf. Since the project does not meet the density standards of the existing R-3 Zoning, a Change of Zone and Specific Plan Amendment are requested to rezone the property to R-5, allowing up to 7 du/acre. The project is Phase 8 of the Orchard subdivision, which is mostly zoned R-3 as well. This property was set aside for a Highway 70 bypass, but the bypass will no longer be constructed, so the applicant has requested to develop the property.	MND	08/11/2006

2006072047	<p>Anderson Bank Building Window Project Davis, City of Davis--Yolo</p> <p>The Anderson Bank Building is considered to meet the definition of a Historic Resource set forth in the California Environmental Quality Act (CEQA) and is designated as a City of Davis Landmark. The proposed project consists of two equal weight alternatives, which are described herein as Design Options A and B. Design Option A would involve the installation of four new windows in the bulkhead beneath the existing brick sills that anchor the four arched windows sited along the east and south building elevations. Each new window would measure approximately 5' X 2', and would compose the wall section between the soldier-and-rowlock brick window sill. No other changes are proposed as part of Design Option A. Design Option B would result in the removal of the existing brick sill, ornamental end panels, and the installation of a new window with a tri-partite sash that is similar to the sash pattern currently incorporated in the building windows. A squared bracket/cap is proposed for installation on the wall in place of the existing historic end panels. No other changes are proposed as part of Design Option B.</p>	NOP	08/10/2006
2006072054	<p>Capitol Grand Tower (P04-231) Sacramento, City of Sacramento--Sacramento</p> <p>The proposed project involves the demolition of the two existing structures and the construction of a 56-story, 1,171,212-square foot building on 0.58 acres. The Capitol Grand Tower Project includes 200 hotel rooms with a pool/fitness room, a restaurant, several small retail shops, 662 stalls of above ground parking, a small meeting room, 54,634 gross square feet of office area, 278 condominium units, and a 149,300 square foot basement and lobby area. The basement would include 5 stories below street level. Above the first floor would be seven floors of parking facilities, two floors of office, nine floors of hotel rooms, one floor for the fitness room and pool, 31 floors of condominiums and two floors for a penthouse. The condo units would each average 1,200 square feet. The structure would provide access to parking floors via an entrance from J Street and an exit into the alleyway behind the structure.</p>	NOP	08/10/2006
2006071046	<p>Village at Nipomo Parcel Map and Conditional Use Permit ED 05-454 San Luis Obispo County Nipomo--San Luis Obispo</p> <p>Request by Village at Nipomo LLC for Vesting Tentative Parcel Map CO 06-0037 to subdivide an existing 3.62 acre parcel into five commercial parcels ranging in size from 0.22 acres to 1.37 acres. The project includes the development of five commercial buildings on the proposed parcels for a total 38,189 square feet of retail and restaurant floor area. The project will result in the disturbance of the entire 3.62 acre parcel. The division will create an on-site road. The proposed road name is: Mary Avenue extension. The proposed project is within the Commercial Retail land use category and is located at the southeast and southwest corners of the intersection of W. Tefft Street and Mary Avenue (601 W.Tefft Street) in the community of Nipomo. The site is in the South County (Inland) planning area.</p>	Neg	08/10/2006

	public floating facilities. No known archaeological sites exist in the proposed footprint, however, should the project result in identifying significant archaeological resources, work will cease until an appropriate data treatment program is designed and implemented. All such cultural resource management activities will be conducted by or under the supervision of a California Department of Parks and Recreation (DPR) qualified archaeologist.		
2006078132	Native Plant Nursery Parks and Recreation, Department of --Monterey Develop a native plant nursery, including a greenhouse and plant holding area to provide native plants for current and future re-vegetation projects within the Big Sur Sector. The greenhouse is a pre-fabricated structure built by Santa Barbara Greenhouses of clear redwood with thick tempered glass side panels and a double-wall polycarbonate roof. It measures 11 feet wide by 16 feet tall by 9 feet tall. The plant nursery would also include an area approximately 15 by 35 feet, where plants would be held prior to planting. This area will be enclosed with a four feet high fence made of metal deer fencing covered with black nursery shade cloth. Water to the site is available via hose from a spigot about 30 feet away. The proposed project site is located on an asphalt parking area and is adjacent to structures that are used for park maintenance and natural resource operations. The nursery will not be visible from the Pt. Sur Lighthouse area is only slightly visible from Highway 1, at a distance of approximately 3/4 of a mile. The only vegetation around the project site is non-native kikuyu grass. No sensitive natural or cultural resources occur on or around the proposed project site. The proposed plant nursery is a temporary and reversible use for this area. The greenhouse is bolted together and it sits on a free-floating timber foundation; enabling for easy dismantling and removal. A CEQA exemption for development of the temporary nursery does not include associated revegetation projects in other areas of the park. All revegetation projects must be reviewed by a DPR-qualified archaeologist for potential archaeological impacts.	NOE	
2006078133	Kayak Tours Concession Operation Parks and Recreation, Department of Carmel--Monterey Provide guided Kayak Tours of Carmel River State Beach and parts of Point Lobos State Reserve by State contracted Concessionaire. Tours will be offered seven days a week, Saturday and Sunday being the most common days. Maximum capacity is six clients per tour. Only one tour operates per day. Start times are flexible to adapt to weather patterns, but always run during daylight hours. Tours operate on days with a swell of less than eight feet and winds of less than 15 knots. Weather beyond these limits will cause cancellation. All tours use closed-deck, double sea-kayaks. Clients are provided with 30-45 minutes of on-land kayaking instruction prior to tour departure. They are required to wear life vests at all times. On-water paddling time lasts approximately two to three hours. A six hour tour is offered to Stillwater Cove and back, though uncommon. Safety equipment which is carried at all times includes: VHF radio, cell phone, signal flares, whistle, First Aid kit, tow ropes, and kayak-specific rescue equipment. Tours follow a set route: launching from Monastery Beach, paddling occurs along the outer perimeter of the kelp canopy, heading towards Whalers' Cove. Tours	NOE

may enter, but never land within Whalers' Cove. Proceeding towards the 'Point', tours may enter the outer edge of Bluefish Cove, if no animals will be disturbed by this activity. Bluefish Cove will not be entered while animals are resting or nesting there. Tours then proceed along the northern coast of the Reserve until the Sea Lion Rocks are within view, or until conditions get uncomfortable. Tours do not proceed south as there are complicated currents and many colonies of animals that are easily disturbed beyond this point. Tours then head towards Carmel River State Beach by the Carmel River lagoon. From here, tours make their way back to Monastery Beach along the edge of the kelp canopy. This is a round-trip of about four miles, and is suitable for average paddlers under normal, summer season conditions.

1998031142	Martin Ranch Master Planned Development San Bernardino, City of San Bernardino--San Bernardino The project consists of a 347-lot subdivision including 329 buildable residential lots, open space lots, mini-parks, water reservoir parcels and private streets on ~ 353 acres. The proposed project also includes a request for annexation into the City of San Bernardino, a General Plan Amendment to prezone the property, and allow development within a Hillside Management Overlay District.	EIR	08/28/2006
2005071048	West Main Street Corridor Master Plan Project Alhambra, City of Alhambra--Los Angeles The West Main Street Corridor Master Plan encompasses a seven-block segment of West Main Street between Garfield Avenue and Atlantic Boulevard. The West Main Street Corridor Master Plan would initially be implemented through the redevelopment of four selected "development sites." The four sites (Sites 4, 5, 6, and 7) range in size from 1.20 to 3.40 acres and collectively total approximately 8.30 acres. With the exception of Site 5, each site comprises multiple parcels. Redevelopment of the four sites would result in the construction of approximately 568 dwelling units and 72,969 square feet of commercial space. One of the proposed development sites (Site 5) currently houses the City's public library; therefore, relocation of the library to a temporary facility and subsequent library operations at that location are also evaluated as part of the project.	EIR	08/28/2006
2005102134	Shasta Ranch Mining and Reclamation Plan, Use Permit 05-010 and Reclamation Plan 05-001 Shasta County --Shasta The proposed project is a request for approval for a Use Permit (UP 05-010) and Reclamation Plan (RP 05-001) to mine alluvial sand and gravel near the Sacramento River. The project site encompasses approximately 947 acres, of which 268 acres will be mined for aggregate material. The mined aggregate (gravel) would be crushed, screened, washed, stockpiled, and loaded for off-site transport. Approximately 3.43 million cubic yards of overburden and 6.06 million cubic yards of soil and gravel would be excavated. The project would generate an average of 60 truck round-trips per day, and a maximum of 120 truck round-trips	EIR	08/28/2006

	per day. The project would operate for approximately 29 years, until the year 2035. There are three phases, and each phase would operate for 8 to 10 years. Upon completion of all mining activities, the areas of disturbance would be reclaimed to agricultural farmland, ponds, and open space.		
2006011119	City of Newport Beach General Plan Update EIR Newport Beach, City of Newport Beach--Orange Implementation of the proposed General Plan Update would result in new development within the Planning Area, which consists of two geographical areas; the City's corporate limits, and its Sphere of Influence (SOI) represents those areas likely to be served by and potentially annexed to the City. The SOI includes the existing City boundaries as well as an additional 361 acres of land in the Banning Ranch subarea. Land use designations under the proposed General Plan include residential, commercial, office, industrial, parks/open space, visitor-serving, and institutional. Generally, development in accordance with the General Plan would result in appropriate infill of vacant lands in the City and redevelopment of existing sites, effective reuse of obsolete sites, and incremental growth in specific areas within the City. Implementation of the updated General Plan at its fullest intensity for all vacant lands would result in the development of the land use types listed above.	FIN

	roadways, the demolition of approximately 120,000 square feet of building structures on the project site, and the development and operation of traditional high school and evening adult school programs.		
2006071060	City of Palm Springs General Plan Update Palm Springs, City of Palm Springs--Riverside The proposed project is an update to the City of Palm Springs General Plan. This update involves a revision to the land use map and a revision to elements required by the State of California as well as optional elements. The General Plan contains seven state-mandated elements including: Land Use, Housing, Circulation, Safety, Noise, and Recreation, Open Space and Conservation. Since opportunities for redevelopment and reinvestment into the community are a prominent issue for the City, economic development and improved community quality are a considerable focus of the updated General Plan and its policies. As a result, two additional elements were included in the General Plan to provide additional direction for the City's future: the Community Design Element and Air Quality Element.	NOP	08/11/2006

2006071062	94047-(3), RCUP20040080, RENV20040084 Los Angeles County Department of Regional Planning Malibu--Los Angeles A conditional use permit request to ensure compliance with hillside management and significant ecological area review criteria. The proposed project includes a new road, bridge, and drainage features to replace two access roads that were approved in 1995 under CP94-047 and PM 23897 was approved to create four single family residential lots on 35 acres with at least 70% of the property to remain open space. The approved cul-de-sac and access road from Palm Canyon Lane to parcel 4 will be abandoned and the previously approved access road from Serra Road to the cul-de-sac between parcel number 2 and 3 will be realigned within the City of Malibu. A new, approximately 200 foot long paved concrete road, 30 foot by 15 foot wide steel pre-fabricated bridge, and fire department turnaround will be extended from that cul-de-sac over parcel number 3 to access parcel number 4 and will be built within the County of Los Angeles. A drainage culvert will be constructed across the border of unincorporated land and the City of Malibu. A MND was prepared for CP94-047 and PM 23897.	Neg	08/11/2006

2006072057	Tehama County Administrative Office Building Project Tehama County Planning Department Red Bluff--Tehama To construct the Tehama County Administrative Office Building; a two-story office building consisting of approximately 18,513 square feet and construction of a separate storage building of up to 2,400 square feet in size on County-owned property. The project will also consist of onsite rough grading, underground utilities, parking lot and landscaping. The project is on County property located at the southwest corner of the Oak Street/Monroe Street intersection in the City of Red Bluff.	Neg	08/11/2006
2006072059	Blacklock Restoration Project Water Resources, Department of Suisun City--Solano The proposed action includes restoring tidal flows to a 70 acre managed wetland in Suisun Marsh. The proposed action would include constructing two 65-foot long breaches along the exterior levee of this property.	Neg	08/11/2006
2006072061	TSM 05-02 (Baker) Oroville, City of Oroville--Butte The project proposes to create 23 residential building lots from a portion of two adjoining properties that total 6.8 acres. The two properties "wrap around" two sides of the properties that abut Jasmine Court. One of the properties abuts Table Mountain Boulevard, southeast of Jasmine Court. The adjoining property abuts the California Department of Water Resources Power Canal. Locks Lane (proposed) would be constructed to serve the project and would connect to Pomade Street which currently serves the Baker Estates Unit 1 adjoining subdivision. In order to handle additional stormwater runoff created by the construction of the project, a detention pond is planned on the northwest corner of the intersection of Locks Lane and Table Mountain Boulevard just south of Lot 1.	Neg	08/14/2006
2006072062	Demolition Range - Dry Lake Area, Sierra Army Depot, Final Engineering Evaluation/Cost Analysis, Former Honey Lake Toxic Substances Control, Department of --Lassen DTSC has prepared a draft IS and draft ND under the CEQA for the approval of the Final Honey Lake Demolition Range - Dry Lake Area Engineering Evaluation/Cost Analysis (EE/CA). The proposed actions will be conducted in compliance with the Comprehensive Environmental Response, Compensation, and Liabilities Act (CERCLA), the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), and chapter 6.8, division 20, of the California Health and Safety Code. The actions to be taken at the Dry Lake Area are intended to investigate and remediate the surface and subsurface environment of potential hazards posed by Munitions and Explosives of Concern (MEC) to a level that does not pose a significant health risk for the intended future use of the property. The proposed actions are intended to be the final remedy for this area.	Neg	08/14/2006

	Protect activities are anticipated to be completed within approximately two years.		
2004102005	RMC Pacific Materials Project Final EIR West Sacramento, City of West Sacramento--Yolo The proposed project would include the construction and operation of a cement terminal, an aggregate terminal, and a ready mix concrete batch plant. These cement and aggregate materials would be imported via ship and rail facilities and transferred by conveyors to six 189-foot tall 10,000 ton cement storage silos and aggregate piles up to 50 feet in height. These materials would then be loaded into trucks or rail cars for distribution. The batch plant would receive cement and aggregates from the terminals to produce cement onsite that would then be delivered to area customers by truck. Transportation facilities would consist of a new rail car loading facility and ship dock. Additionally, the proposed project includes the acquisition of easements, use agreements, assignment and/or other documents to provide non-exclusive access over the riverfront parcel adjacent to 1501 South River Road owned by the California State Lands Commission and leased by RMC. The proposed project also includes the demolition of an existing cement terminal at 1501 South River Road in West Sacramento. No specific redevelopment of the existing terminal site is proposed.	NOD	
2005061091	ESCO Mixed-Use Development (Shopkeeper Units) ER 2005-02, TR 911 and 2005-PD/CZ Escondido, City of Escondido--San Diego The applicant proposes to alter the streambed of an unnamed tributary to the San Dieguito River to accommodate construction of the ESCO Mixed Use Development Project (Shopkeepers Cottages). Construction includes grading and fill to divert the drainage underground in to a 48-inch reinforced concrete pipe. Streambed Alteration Agreement #1600-2005-0625-R5.	NOD	
2005082022	City of Wheatland - General Plan Update Wheatland, City of Wheatland--Yuba The proposed General Plan Update project involves adopting a new set of land use policy guidelines constituting the City's long-term plans and goals for growth. The General Plan Update expresses the City of Wheatland's ultimate development goals and incorporates public policies relative to the distribution of future public and private land uses. The General Plan includes the seven elements required by the State of California, including Land Use, Circulation, Housing, Conservation, Open Space, and Noise and Safety. The accompanying General Plan EIR evaluates the environmental effects resulting from the build out of the Wheatland General Plan Update Project.	NOD

2006078136	Phase II - Sediment Remedial Action, Surface Water and Sediment Operable Unit, McCormick & Baxter Superfund Site, Stockton, California Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Stockton--San Joaquin The Lead Agency (the United States Environmental Protection Agency [USEPA]) determined that there was a risk to ecological receptors from the contaminated sediments in Mormon Slough. As described in the "Record of Decision, McCormick and Baxter Superfund Site, Stockton, California" dated March 31, 1999, the USEPA evaluated various remedial alternatives to address the contaminated sediments in Old Mormon Slough. Capping with clean sand was selected as the most effective remedy. Clean sand will be used to construct an underwater cap over the contaminated sediments as the Old Mormon Slough. This sediment cap will isolate the contaminated sediments from both aquatic benthic organisms and the overlying water column, minimizing further contact between the contaminated sediments and these organisms. 2006074002	<p>High Speed Passenger Train (DesertXpress) Extending from Victorville, California to Las Vegas, Nevada DesertXpress Victorville--San Bernardino</p> <p>DesertXpress Enterprises, LLC (the project Applicant) proposes to construct and operate a privately financed interstate high-speed passenger train, with a proposed station in Victorville, California and a station in Las Vegas, Nevada, along a 200-mile corridor, within or adjacent to the I-15 freeway for about 170 miles and adjacent to existing railroad lines for about 30 miles. The need for the project is directly related to the rapid increase in travel demand between Southern California and Las Vegas, coupled with the growth in population in the areas surrounding Victorville, Barstow, Primm and Las Vegas, which has resulted in substantial congestion along the I-15 freeway between Victorville and Las Vegas. Ridership is estimated to be 4.1 million round trips in the first full year of service. To accommodate this level of ridership, trains would operate from 6:00 am to 10:00 pm daily, 365 days per year at 20 to 30 minute intervals during peak periods. The project would involve construction of a fully grade-separated dedicated double track passenger-only railroad along an approximately 200-mile corridor, from Victorville, California to Las Vegas, Nevada. Where the railroad alignment would be in within the I-15 corridor, continuous concrete truck barriers, as well as American Railway Engineering and Maintenance of Way Association crash barriers at all supporting columns of bridges at freeway interchanges and</p>	NOP	08/14/2006

<u>Documents Received on Friday, July 14, 2006</u>			
	overpasses would be provided. The project would include the construction of a passenger station in Las Vegas. The proposed Victorville Station would be located along the west side of I-15 between the two existing Stoddard Wells interchanges. The facilities directly associated with the Victorville station would occupy about 60 acres of land, and would have a parking capacity for up to 10,000 automobiles. Access to the Victorville station would be via the two existing Stoddard Wells Road Interchanges. The Maintenance, Storage and Operations facility is proposed to be located in the City of Victorville on a site that lies within the Victorville Valley Economic Development Area. The facility would require approximately 50 acres, and would include a fueling station, train washing facility, repair shop, parts storage and operations center. It is estimated that approximately 400 employees would be based at this facility. The Las Vegas passenger station would be located at one of three possible locations: 1) near the south end of the Las Vegas Strip; 2) in the center section of the Strip; or 3) in downtown Las Vegas. A light maintenance, cleaning, and inspection facility would also be built near the Las Vegas station.

2006071073	Black Diamond Aggregates (CUP #2870) Merced County --Merced Black Diamond Aggregates is proposing modification to their existing use permit (CUP #2870) and reclamation plan to allow mining below existing grade and reclamation of the site to open space and habitat. The project would be located on approximately 175 acres currently utilized for mining operations.	Neg	08/14/2006
2006072063	Terry Ashe Recreation Center Project Paradise Recreation & Park District Paradise--Butte The project consists of two elements; the demolition of the existing recreation center and the construction of a new facility. The existing facility is approximately 6,000 s.f. in size and was built in 1954. It is within the Town of Paradise Downtown Revitalization Master Plan Area and is a good example of inadequate infrastructure and physical blight. The proposed new facility is approximately 14,000 s.f. in size and will utilize the land space more efficiently.	Neg	08/14/2006
2006072064	Vineyard Memorial Cemetery - Smith - Conditional Use Permit C-8465 Alameda County Livermore--Alameda Conditional Use Permit to allow development of a phased cemetery, mortuary, mausoleum, caretakers residence, main residence, and manager's residence on a 44-acre portion of a 110-acre site. Subsequent Site Development Review required for two residences.	Neg	08/14/2006
2006072066	San Rafael Carriage Houses San Rafael, City of San Rafael--Marin The project consists of demolishing the existing buildings and replacing them with 15 "Carriage House" townhouse units with 2-car tandem parking garages. State Density bonus is requested and a zoning increase to RM 2.0 with provision of two units affordable to low-income households. A new storm drain line in Mission Avenue would cross the US 101 on-ramps.	Neg	08/14/2006
2005021054	Lytle Creek Apartments Fontana, City of Fontana--San Bernardino The proposed project would consist of 238 dwelling units on 10.4 acres of land, which equates to a density of 22.9 dwelling units per acre (du/ac). This density is consistent within the General Plan's prescribed density of 12.1-24.0 du/ac for multi-family residential development. The proposed apartment complex would include 17 three-story apartment buildings and three one-story recreation buildings. The buildings would feature tile roofs, stucco exteriors, stucco covered wood trim, wood siding, decorative wood brackets, and wrought iron railings. Ten floor plans would be available, ranging from 1 bedroom/1 bathroom to 3 bedrooms/2.5 bathrooms. Amenities included in the project would be a community multi-purpose room, business center, fitness center, pool, spa, demonstration kitchen, tot lot, par course, outdoor fireplace, barbeque area with multiple grills and picnic benches, and a large open lawn area. The proposed project would provide a total of 522 parking spaces on-site: 238 garage spaces, 140 carport spaces, and 144 open spaces. The buildings would be 40 feet in height.	Oth	08/14/2006

1996041050	<p>California State University, San Bernardino, Approval of Schematic Plans, Student Housing Expansion, Phase I</p> <p>California State University Trustees</p> <p>San Bernardino--San Bernardino</p> <p>The proposed project is the development of the Northern Access Road with a newly proposed access point to Northpark Boulevard. The Northern Access Road will be constructed within the campus from Little Mountain Road on the eastern boundary of the property, north and westward around the campus core, and joining with the future extension of Pepperlindin and Devil's Canyon Road. The road will be extended on the northeasterly portion of the campus as an extension of the Northern Access Road to provide an additional northerly access to the campus off of Northpark Boulevard. The project is found to be consistent with the Final EIR for the CSUSB Master Plan Revision Certified on February 1997.</p>	NOD

The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0100-R6 pursuant to Section 1601 of the Fish and Game Code to the project applicant, City of Bishop. The applicant proposes to construct gutters, curbs, and sidewalks and install a Stormceptor.</p>	NOD	
2003062002	<p>City of Turlock Harding Drain Bypass Project</p> <p>Turlock, City of</p> <p>Turlock--Stanislaus</p> <p>Water Code section 1211(a) requires the owner of a wastewater treatment facility to receive approval from the State Water Board of any change in the purpose of use, place of use, and point approval from the State Water Board of any change in the purpose of use, place of use, and point of discharge of treated wastewater. The City has petitioned the State Water Board to change the point of discharge of its treated wastewater effluent from the Harding Drain, which is tributary to the San Joaquin River, to a new point of discharge directly into the San Joaquin River. The City proposes to construct a 36-inch outfall force main from the terminus of the current outfall at Harding Drain to the San Joaquin River. The force main will run adjacent to the Harding Drain and its outfall into the San Joaquin River will be situated approximately 560 feet upstream of the confluence of the drain and the river.</p>	NOD

	recovery system will consist of two backwash pumps, a 30,000 gallon recovery tank, and two recovery backwash pumps. A new 1,650 square foot water treatment plant building will be constructed next to the prison's existing water storage tanks and booster pumping station. The building will be designed to house chemicals used in the treatment process, filtration system control panel, air compressor, and chemical analyzers. The project includes electrical power and control system upgrades to accommodate the arsenic water treatment process. It is anticipated that construction would start in April 2007 and be completed by December 2007. The ground water treatment system is required to meet new adopted arsenic regulations to reduce maximum contaminant levels for drinking water. Existing staff would be trained to operate the facility.		
2006078140	Minor Alterations of Existing Facility - Northern California Youth Correctional Center (NCYCC) Stockton Blast Chillers Construction Corrections and Rehabilitation, Department of Stockton--San Joaquin CDCR is planning to construct an insulated floor assembly to replace the badly deteriorated concrete floor in addition to replacing the existing three double-deep blast chiller units with three triple deep non CFC refrigerant blast chiller units. The existing walls of the walk-in cooler will be replaced with a more durable wall system. Construction is scheduled to begin in June 2007. The project will be constructed completely within existing facilities. No other additional support facilities, significant utilities, or infrastructure improvements at the project site will be required. The project will not generate the need for additional staff. The total ward population at NCYCC would not exceed the current population levels. NCYCC provides administrative services to three separate facilities in Stockton. Those facilities are O.H. Close, DeWitt Nelson and N.A. Chaderjian Youth Correctional Facilities.	NOE	
2006078141	Construct Firewood Storage Box Parks and Recreation, Department of --Shasta Install a 4 foot by 7 foot by 6 foot high firewood storage box attached to the entrance station for securing firewood for sale to the general public. Entrance station originally constructed in 1949 and significantly modified over the years. In consultation with a DPR Historian, the building has been determined "not eligible" for the California Register of Historic Resources. The project is entirely reversible. Should any project activity result in exposure of potentially-significant archaeological resources, work will cease until the find has been evaluated and an appropriate data treatment program is designed and implemented. Such cultural resource management activities will be conducted by or under the supervision of a California Department of Parks and Recreation qualified archaeologist.	NOE	
2006078142	Wallace Dam, No. 499 Water Resources, Department of, Division of Dams --Calaveras Repair the upstream face of the dam with a clay blanket and a cutoff trench.	NOE
